

Last CALL FOR PAPERS – WCCCE 2010

The WCCCE 2010 Conference Committee is soliciting papers, descriptions of demonstrations, proposals for panels, proposals for short papers and proposals for Birds of a Feather sessions in a broad range of topics. The topics should be related to teaching and learning in computing science and other computer-related fields such as computer technology and information systems. Topics include, but are not limited to:

- Post-secondary programs and curricula
- New or experimental curricula at any level
- Teaching strategies, materials and tools for specific concepts or courses
- Gender, ethnicity, accessibility issues in computer education
- Applications for distance and/or distributed learning
- Multimedia applications for computer education
- Issues pertaining to enrolment, retention, academic success and experiential learning
- Issues pertaining to retraining and upgrading
- Innovations and approaches to K-12 IT education
- Collaborations between K-12 and post-secondary institutions in IT education

If you are using unique methods to teach a computer-related topic, this is the place to share your approach. If you have successfully adopted a new tool or technology in your computer related courses or labs, this is the place to brag about it. If you have developed a tool that improves instruction quality for your courses, this is the place to demonstrate it. Even if you have tried methods or tools in your instruction with little success, we are still eager to hear about it. Your experience will help us all.

Please notice the extended deadline, and additional events

Papers may describe teaching strategies, research projects, or instructional tools and applications. Accepted submissions will be given between 25 and 45 minutes for presentation.

Short Papers are intended to present work in progress or lessons learned from unsuccessful experiments. Accepted submissions will be given between 5 and 15 minutes for presentation.

Panels are intended to present multiple perspectives on a single topic. Panels duration will normally be 1 hour.

Workshops are intended to present a technique or tool you have experimented with and would like to share. Workshop lengths will be of 45 minutes to 1 hour.

Birds of a Feather sessions provide an environment for colleagues with similar interests to meet for informal discussion. Discussion time will vary based on topic.

Submission details

All submissions should be in pdf format and follow the [ACM SIG proceedings form](#). Full papers should be no more than 5 pages in length. Submit a one-page abstract for short papers. All accepted submissions will appear in the proceedings. If you are proposing demonstrations, panels, workshops, informal discussions or birds of feather sessions, contact the organizers for formatting details.

To submit to the conference, go to <https://www.easychair.org/login.cgi?conf=wccce2010> and create an EasyChair account (unless you already created one for another conference). Then login and select New Submission. (If you are a chair or PC member, you may have to select WCCCE2010->Change Role to login as an Author.

If you are having trouble creating an account or submitting a paper, please contact yves.lucet@ubc.ca.

At least one author of each accepted submission must register and present at the conference.
